"Earth science learning for all"

Evening talks 2023/4

'Wednesdays at 7'...

Welcome to our programme of evening talks entitled 'Wednesdays at 7' covering the period December 2023 to March 2024. The sessions introduce you to a wide variety of topics ranging from some of the key people in the history of geology, through to one-off topics covering key aspects of our subject.

Each of the topics will be presented in a lively and entertaining style that feeds into the feeling of inclusivity and informality that are the hallmark of our work. Everyone is welcome to join us on the hour long live Zoom sessions that take place at 7pm, mainly on a Wednesday evening.

Each session costs £10.00 per person and you can sign up for each one individually or for all of the 2024 sessions - at the discounted price of £90.00.

December

- 13 Charles Darwin the geologist
- 19 Diamonds really are forever (N.B. Tuesday)

January

- 10 Serpentine - what is it and what does it tell us?
- 17 The geology of the Spa Towns in the UK
- 24 Charles Lapworth - an amazing geologist
- 31 Geology along the Settle-Carlisle railway

February

- 14 Volcanoes - what's been happening in Iceland recently?
- 21 Gideon Mantell - the UK's first 'dinosaur man'
- 28 The South Pennine Mineral Field - copper, lead & Blue John

March

- 6 The geology of Charnwood Forest, Leicestershire
- 13 The rise and fall of a Lake District Wolfram Mine - Carrock Fell
- 20 The geology of the Island of Rum in the Inner Hebrides
- 27 Mapping England & Wales with William Smith
